

ZEBRA MUSSEL VELIGER TOWS 2020

From the Washburn County Land and Water Conservation Dept, the following information is the last of the results for zebra mussel veliger testing for Washburn and Burnett Counties:

NO veligers were detected in the un-infested lakes.

Big McKenzie had a high number of veliger's found, some in Middle, NONE in Lower.

This information was not available at the time of the September 2020 MLA membership meeting.
